

TROUBLE DOWNSTAIRS? IT COULD BE A PROSTATE PROBLEM

Due to the pandemic, over 14,000 undiagnosed men have not started treatment for prostate cancer.

This Men's Health Month, join your local Shed as we make our 'Prostate Pledge', a promise to check our prostate.

Learn the signs of prostate ill health from Sheddors affected by the disease, and pick up a free appointment planner to help you discuss prostate health with your GP.
